

1 October 1963

MEMORANDUM FOR: Assistant for Administration, NPIC

ATTENTION : Chief, Logistics Branch

THROUGH : Chief, Plans and Development

SUBJECT : Procurement of Electronic Equipment for Installation and Operation of Multiple Image Correlator

STAT REFERENCE :

1. The subject contract calls for installation and demonstration of the Multiple Image Correlator at this facility. This will require special electronic equipment the furnishing of which is our responsibility. Inasmuch as the equipment will be useful in other areas, it will be more practical to purchase than lease.

2. The attached requisitions cover the procurement of the necessary equipment. The contractor has specified these items particularly, and it is requested that no substitutions be procured.

3. The contractor plans to install the Multiple Image Correlator approximately 8 weeks from the date of award of the feasibility-demonstration contract. It will be necessary to have the requested equipment on hand and operating by that time. It is therefore requested that the attached requisitions be expedited to achieve delivery within 6 weeks from the date of this memorandum.
